

Product Name:
Series 300 Polymer Distribution Box

EI Code:
84919

Dimensions:
357 H x 357 W x 326 D

Weight:
2.7kg

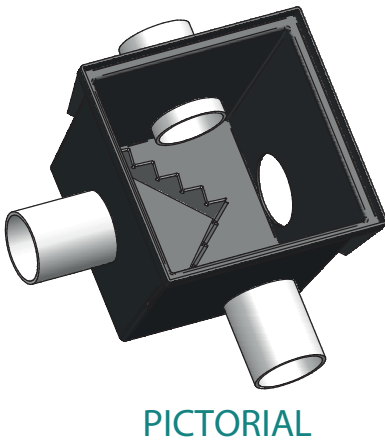

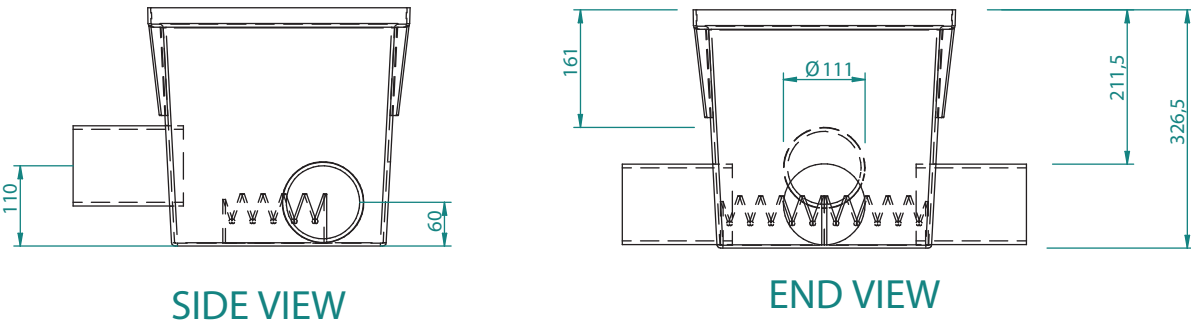

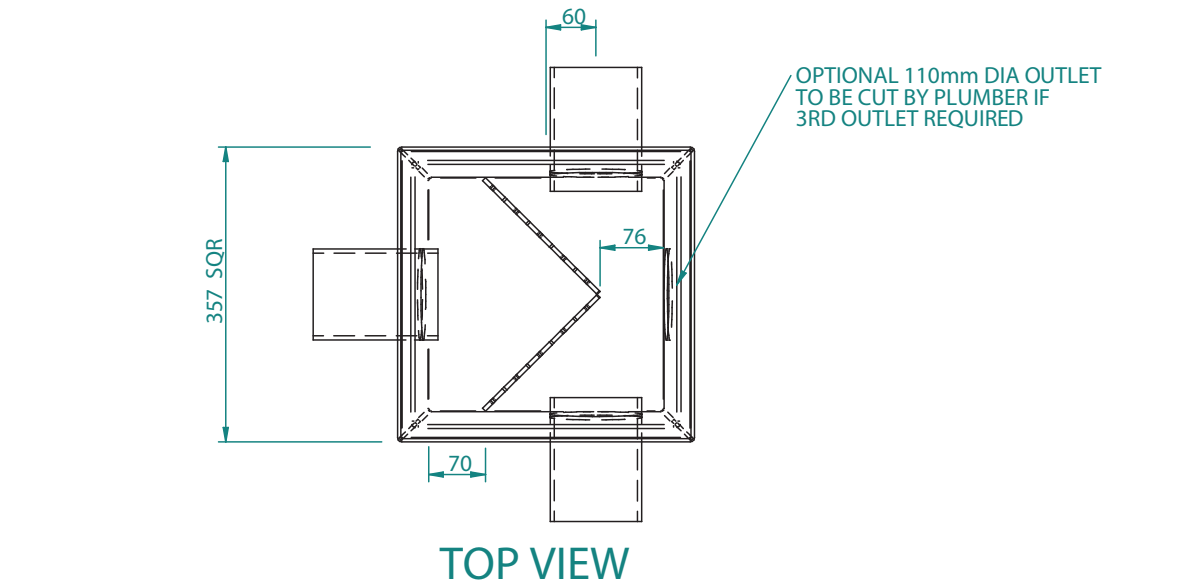

Material:
PP

Additional Information:

Everhard recommends 3000L or smaller septic tanks to use the Series 300 Septic Distribution box due to larger surge volumes. Everhard recommends the use of the pit boss for pipe connections into the distribution box. Check with the local authority on the use of Everhard Polymer Septic Distribution boxes and the required size.
