

The Everhard 1000L Polymer Pump Well is the ideal vessel for a number of domestic or industrial applications.

Inlet Connections

The premoulded inlet connections provide capacities of 400L, 600L, 800L and 1000L. These are supplied with the connection recesses closed and are easily cut at the chosen port with an appropriately sized hole-saw. Holes may also be cut into flat side panels where required.

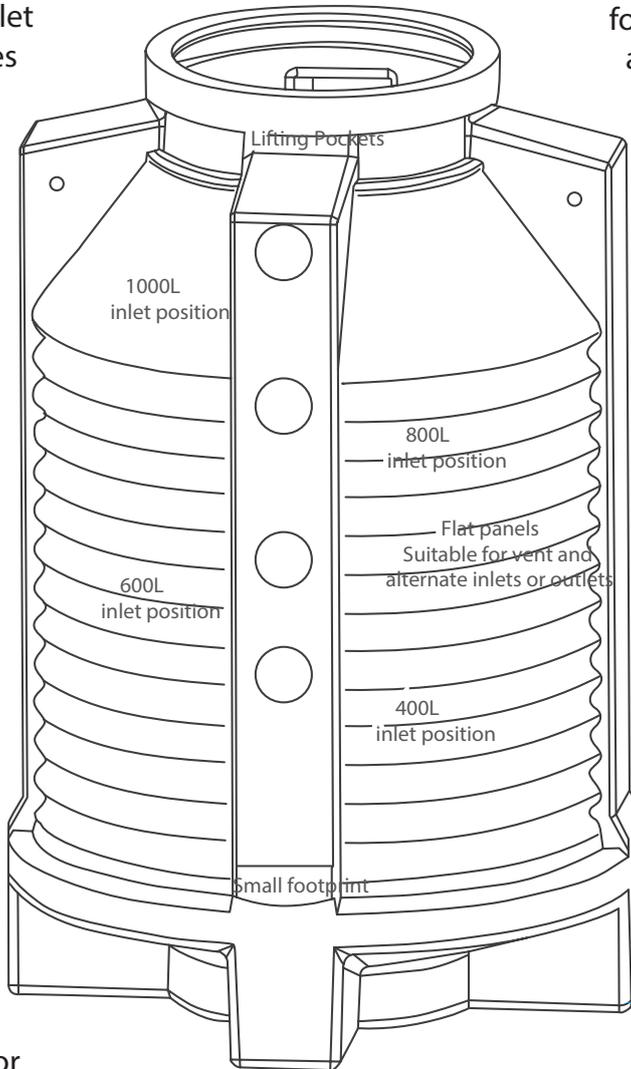

All of the premoulded inlet connections accept standard DN100 uPVC DWV pipe and a rubber joint ring is provided. A vent be fitted to the Pump Well with bulkhead fitting and pipe work after an appropriately sized hole has been cut.

Durable

Polyethylene guarantees high durability against dents, cracks or breaks in the material. Each Pump Well is made with virgin polymer for reliability, even under pressure.

Standards Mark Licensed

The Everhard Polymer Pump Well has been certified to ASNZS1546.1 and complies with the Australian/New Zealand standard for vessels such as

Septic Tanks and Collection Wells for use in domestic and some other situations.

Easily Transported

The Polymer Pump Well weighs approximately 90kg and is

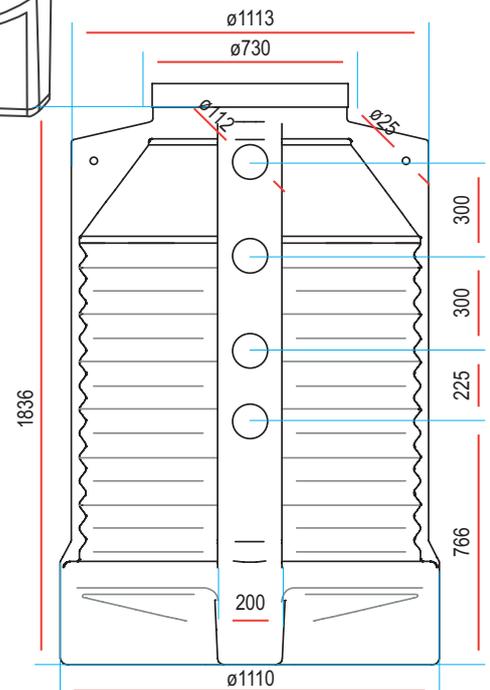

designed with a small footprint for easy transport - even using a ute or trailer. Lifting holes located near the top of the Pump Well ensure that it can be safely manoeuvred on site without the need for heavy machinery.

Recyclable Material

Polyethylene can be fully recycled and reused for the production of high quality products.

Warranty

The Everhard Industries 1000L Polymer Pump Well comes assured with a 15 year manufacturer's warranty on the polymer components and workmanship of the Pump Well.

Product Code	Description	Installation	Cover	Capacity
82202C	1000L Polymer Pump Well	Above and Below Ground	Class A	Up to 1000L
250/450L Polymer Pump Well also available
