

A GUIDE TO EVERHARD'S SURFACE WATER DRAINAGE

HOW TO CHOOSE THE RIGHT SYSTEM FOR YOU

1. IDENTIFY THE RIGHT SYSTEM FOR YOU

Our systems are designed to cover all of your domestic drainage needs:

The following factors will determine which Surface Water Drainage system and products are right for you:

AREA

Exterior patios
● ● ●

Swimming pools
● ● ●

- Eurodesign 316 stainless steel + Polymer grates recommended
- Galvanised grates not recommended
- Stainless steel (below 304) not recommended

Paved terraces
● ● ●

Car parks
● ● ●

Driveways
● ● ●

Walkways
● ● ●

Playgrounds
● ● ●

WATER FLOW

LOW
● ● ●

MEDIUM
● ●

HIGH
● ●

RAINFALL

● ● ●

● ●

● ●

When you see this colour on our products, you know it's COMPACT!

When you see this colour on our products, you know it's Flo-way™ / Rainwater!

When you see this colour on our products, you know it's EasyDRAIN™!

2. USE THE COMPONENT DICTIONARY TO HELP YOU SELECT THE COMPLETE SOLUTION

EasyDRAIN™ COMPONENT DICTIONARY

CHANNEL & GRATE Collects and distributes water away from areas around the home	CORNER Allows for an easy change of direction. Clicks together with the EasyDRAIN™ Channel	TEE PIECE* Allows for an easy change of direction. Clicks together with the EasyDRAIN™ Channel	SLIM PIT* Allows seamless connection to the stormwater system	END CAP Provides a finishing point where the stormwater pipe is connected to the base of the channel	LEAF DOME Provides a barrier against leaves and other debris from entering the waterways	CONVERTER Acts as a joiner between cut ends of EasyDRAIN™ channel

* This component is not available in our COMPACT range

3. VIEW & SELECT FROM THE COMPLETE RANGE

A GUIDE TO EasyDRAIN™ COMPACT

The EasyDRAIN™ Compact system has a shallow profile which makes it ideal for low rainfall and low water flow areas

EasyDRAIN™ Compact Black Polymer Channel with Black Polymer Heel Friendly Grate

83500	83600

EasyDRAIN™ Compact Black Polymer Channel with Pressed Galvanised Steel Grate

83501	83601

COMPONENTS

83700	84040	83701

HANDY HINT
