

EasyDRAIN™ EDGE

EasyDRAIN™ Edge
Channel & Grate
EI code: 83210

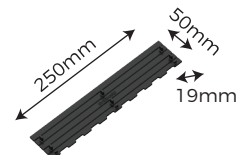

100mm profile makes for easy installation and is suitable for areas with low rainfall and waterflow

EasyDRAIN™ Edge
Access Pit & Grate
EI code: 83215

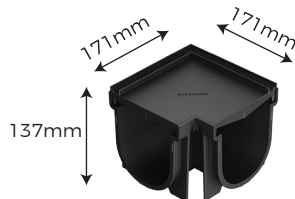

The Access Pit is where debris will collect. This is your access point to clean the drainage

EasyDRAIN™ Edge
Heel Friendly Insert
EI code: 83230

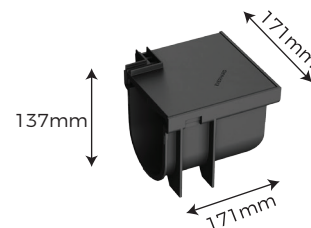

Converts system to heel friendly option for pedestrian activity

EasyDRAIN™ Edge
External Corner & Grate
EI code: 83225

Allows for an easy change of direction. Layout drainage to identify the suitable corner for installation

EasyDRAIN™ Edge
Internal Corner & Grate
EI code: 83220

Allows for an easy change of direction. Layout drainage to identify the suitable corner for installation

*Edge has been tested to handle a max. Of 149L per metre / per minute

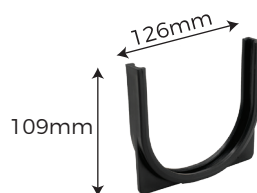

Connects to all EasyDRAIN™ Standard components

EasyDRAIN™ Standard
End Cap
EI code: 83360

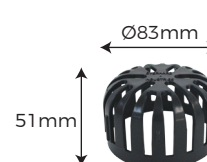

Provides a finishing point to the channel & grate. Acts as a connector to 90mm PVC stormwater pipe (using the cut out feature)

EasyDRAIN™ Standard
Converter
EI code: 83370

Acts as a joiner between cut end of EasyDRAIN™ Edge Channel. Connects together male ends of channel to corners or end cap

EasyDRAIN™ Flo-way
Leaf Dome
EI code: 84040

Placed in the access pit to provide a barrier against leaves and other debris from entering the waterways
